ABOUT

Passionate Full Stack Developer with hands-on experience building dynamic web applications using Django, React, REST APIs, and MongoDB. Strong foundation in DSA, clean code practices, and end-to-end project deployment (AWS/Gunicorn/Nginx). Seeking full-time opportunities to contribute to real-world product development.

SKILLS

PROFICIENT WITH:

Python, Django, Postgresql, React JS, DRE, FastAPI

FAMILIAR WITH:

JavaScript, MongoDB, GitHub, EC2, HTML, CSS

PROJECTS

Eternagem – E-Commerce Website

Tech Stack: Django, HTML, CSS, Bootstrap, SQLite, Razorpay API, JavaScript, Git, AWS

- Developed a fully functional jewelry e-commerce website from scratch using Django for backend and Bootstrap for responsive frontend design.
- Integrated user authentication with **OTP and Google Sign-In**, and implemented **wallet, wishlist, cart, and invoice download** features. Built a custom **admin dashboard** for user, product, category, stock, and order management
- Enabled **Razorpay payment gateway** with retry functionality for failed orders.
- Deployed on **AWS EC2** with **Gunicorn and Nginx**.

User Management - Fullstack Django + React

Tech Stack: Django, Django REST Framework, PostgreSQL, JWT, React

- Built a full-stack user management app with **JWT-based login/signup** and role-based access control.
- Developed **RESTful APIs** using Django REST Framework for user operations (CRUD). Integrated **PostgreSQL** with Django ORM for secure and scalable data handling.
- Created a **React-based user dashboard** and connected it to the Django backend via APIs.

EDUCATION

Diploma in Electronics Engineering — 2020-2023

Government Polytechnic College, Palakkad, Kerala
