## ABOUT

Passionate Full Stack Developer skilled in Django, React, and RESTful APIs, with a strong eye for clean architecture and performance. Adept at building scalable, user-focused applications. Quick learner, creative thinker, and driven by curiosity to craft meaningful digital products that solve real-world problems.

## SKILLS

### PROFICIENT WITH:

Python, Django, Postgresql, React JS, DRF, Redux,JWT

### FAMILIAR WITH:

Js(ES6+), MongoDB, Git, EC2, HTML,TailwindCSS

## PROJECTS

### Eternagem – E-Commerce Website

*Tech Stack: Django, HTML, CSS, Bootstrap, PostgreSQL, Razorpay API, JavaScript, Git, AWS*

- Developed a fully functional jewelry e-commerce website from scratch using Django for backend and Bootstrap for responsive frontend design.
- Integrated user authentication with **OTP and Google Sign-In**, and implemented **wallet, wishlist, cart, and invoice download** features. Built a custom **admin dashboard** for user, product, category, stock, and order management
- Enabled **Razorpay payment gateway** with retry functionality for failed orders.
- Deployed on **AWS EC2** with **Gunicorn and Nginx**.

### E-Learning Platform - Fullstack Django + React

*Tech Stack: Django, Django REST Framework, React, PostgreSQL, JWT, Tailwind CSS, Git, AWS*

- Built a scalable e-learning platform with role-based access for Admin, Instructor, and Student.
- Implemented OTP-based authentication, JWT with auto-refresh, and course/module/lesson management using Django REST APIs.
- Integrated **real-time features** like live video sessions (WebRTC/Socket.io) and interactive chat.
- Added **AI-driven quiz generation**, automated evaluations, and a **conversational chatbot tutor** to enhance learner engagement.
